

Protect Schools, the Environment, and Healthcare

We're coming together to vote NO on three initiatives so that we can protect the communities we've built in WA. A rich, Republican mega donor from California has personally paid to put deceitful initiatives on our ballot that will harm our health, our schools, and our economy, all because he wants a tax break for himself and his rich friends. We all deserve to live in healthy communities with thriving schools, clean air, and access to health care. We know better than to fall for lies.
